What are Downloadable Videos?

MyLibraryDV, created and developed by Recorded Books, LLC, is a revolutionary new online downloadable video service available through public libraries. This FREE service offers library card holders of Bernards Township Library access to classic movies, acclaimed independent and foreign films, documentaries, network and cable shows and exclusive original programming.

What is available?

Online video programming is available to library card holders 24 hours a day, seven days a week—and best of all, it is free of charge to the end user. Some video programs available include *Travel with Rick Steves' Europe*, cooking with *America's Test Kitchen* and *Today's Homeowner with Danny Lipford*. Also available are health-related content, literature programs and kids shows.

How many programs can be downloaded and for how long?

Can download **up to 10 programs at any given time**, provided there is enough memory in their personal computer's hard-drive. **Each program is allowed a seven-day checkout period**, after which the content is automatically deleted.

What are the requirements to download?

Must be a Bernards Township Library cardholder with a personal computer. High-speed internet is strongly recommended for optimal experience.

Computer

System Requirements:

Must have system administrative privileges.
Windows XP with SP2 or Windows 2000 with SP4.
At least 1GB of free disk space.
Windows Media Player 10 or above with the most recent DRM security update. If Windows Media Player is not installed you will be prompted to do so.

Installation and Download

The initial set-up—including a one-time installation of the download manager—takes only a few minutes to complete. Programming downloads quickly. The exact amount of time it takes to download MyLibraryDV content depends on a combination of factors, such as the length of the program, the connection speed and the hardware configuration of the personal computer. Downloading is made easy by progressive download which allows people to begin viewing video almost immediately.

HOW TO ACCESS MyLibraryDV

Downloading content through MyLibraryDV is fast and easy. The following are the simple steps for viewing MyLibraryDV programs on a personal computer or Mac.

Step One: Access MyLibraryDV

- Visit your participating www.bernardslibrary.org and click on the MyLibraryDV button.
- Install the download manager, a one-time requirement that takes about 2 to 4 minutes. The manager is necessary to securely download MyLibraryDV programs. After installing the manager for the first time, use the desktop icon or the icon in the program listings to launch the MyLibraryDV player.
- Follow the instructions to log on. The download manager remembers you even when you close the connection. MyLibraryDV users will not have to repeat this step as long as they do not sign out.
- Browse the program menu. The Channel Guide provides content categories that list program titles alphabetically. For more information on each program, simply click on the picture associated with the title. The program information window provides a brief synopsis, along with downloadable file size, program length and a “Download” icon.

Step Two: Download a Program and Enjoy!

- Select a program and simply click the “Download” icon. The title will be added to the “My Downloads” playlist and will begin to download immediately.
- MyLibraryDV offers progressive download technology. Content may be viewed as the video downloads. Within a few minutes after downloading begins, the “Play” button will appear. At this point, the program can be viewed.
- For the MyLibraryDV basic service users may have up to 10 programs “checked out” at any given time, provided there is enough space on their computer’s hard-drive. Each program has a seven-day checkout period. After seven days, downloaded content will automatically delete itself.
